

E-Invoicing (Fatoorah) Hub Overview

Source: <https://zatca.gov.sa/en/E-Invoicing/Pages/default.aspx>

What is E-Invoicing?

Electronic invoicing is a procedure that aims to convert the issuing of paper invoices and notes into an electronic process that allows the exchange and processing of invoices, credit notes and debit notes in a structured electronic format between buyer and seller through an integrated electronic solution.

Roll-out Phases:

The E-Invoicing (Fatoorah) implementation in the Kingdom. The Zakat, Tax and Customs Authority has launched the E-Invoicing (Fatoorah) requirements and it will be implemented in two phases.

Phase 1: 4 Dec 2021

Phase 2: 1 Jan 2023

E-Invoice Specifications:

Electronic Invoice Data Dictionary - this document contains names, definitions and attributes for data elements.

Electronic Invoice XML Implementation Standard.

Security Requirements: Security Features Implementation Standards - this document contains security requirements for electronic invoice that taxpayers need to meet to comply with the "E-invoicing" Resolution.

Solution Providers Directory: Taxpayers may choose any e-invoicing solution provider as long as it is compliant with the e-invoicing requirements. ZATCA will consider the taxpayer's compliance if they are complying with the e-invoicing requirements even if the solution provider is not listed on the indicative list. The indicative list of the solution providers on ZATCA's website who have passed the qualification process and criteria aims to allow the taxpayers to easily reach potential solution providers.
